# Eddie.02

# **Product Specification**

HodgePodge Playpoints are climbers or rockers or twisters. They are Playpoints first and foremost, but they are also very nice pieces of public design, and they are sculptural. All HodgePodge Playpoints are high-end engineered units made from high-quality materials like stainless steel with a brushed finish, powder coated recycled aluminium connectors, high density polyethylene (HDPE) panels and ITR-bearings for maximum safety and durability.

The Eddie.02 bends over backwards for kids to have fun. Like the Eddie.01 it has a body and a stem made of stainless steel. The curved stem and the bi-coloured platform design make it look attractive anywhere in town.

## **Technical Data**

Technical changes are reserved.

The following text can also be used for tenders.

#### Turntable

Stainless steel plate Ø 494 mm (1'-8"), covered with HDPE panels.

### Tube:

Frameworx®- stainless steel tube Ø 60,3 mm (2 3/8").

#### Sphere:

Frameworx®- aluminum ball connectors, Ø 200 mm (7 7/8"). Anti-corrosion treatment and color finish: sandblasting and solvent-free epoxy-/ polyester-process. The ball incorporates an embedded fastening system. Securely closed with durable EPDM-caps.

#### Stand:

Stainless steel swivel stand with fully encapsulated bearing.

#### Covering

Antiskid HDPE panels, 19 mm (3/4"), bolted on the turntable.
