

# Leaves

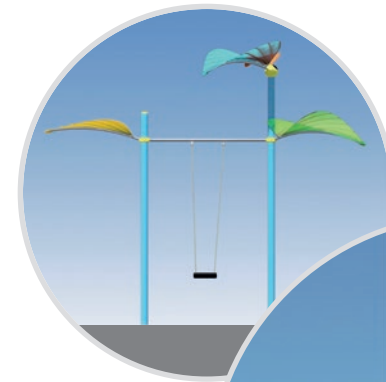

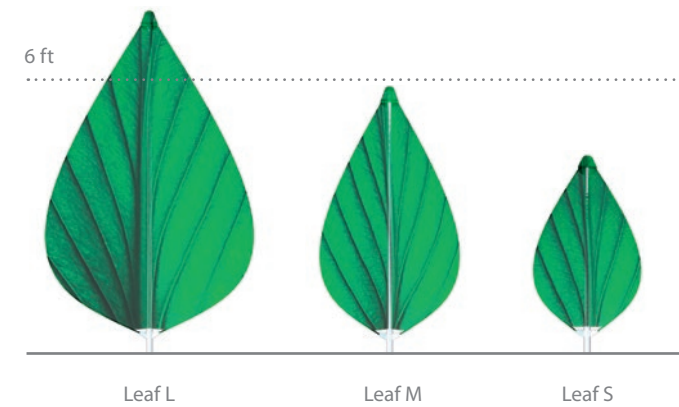

A Cool Add-On to Our Play Equipment

# On the Trail of Nature Leaves

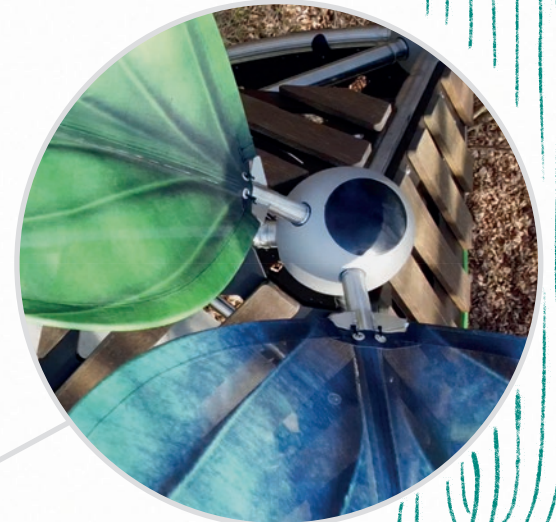

Our new Leaves give your playground ideas that certain something. Whether as a visual highlight or to provide shade for the little ones – the Leaves are not only a real eye-catcher, they also have a practical side effect. These multi-talents are also weather-resistant and can be individually designed. Thanks to the ball connection and the Terranos-clamp, the Leaves can be attached to most of our play equipment of the Greenville and Terranos & Terranova product groups, making your project a very special one. The combination of the three different sizes gives the design a lively look. Let yourself be carried away into the treetops of the playground jungle!

semi-transparent effects

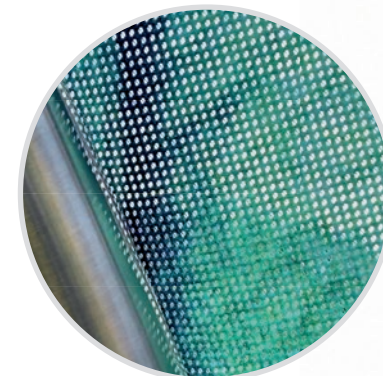

individual colour and motive design possible

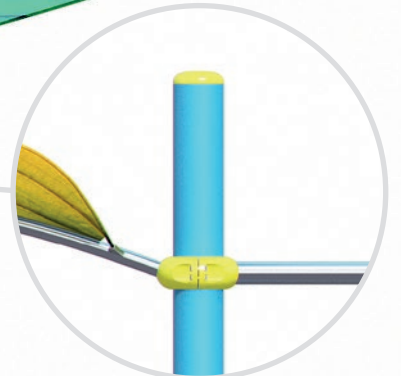

connecting directly to our system ball

can be combined with most of our Greenville, Terranos & Terranova play equipment

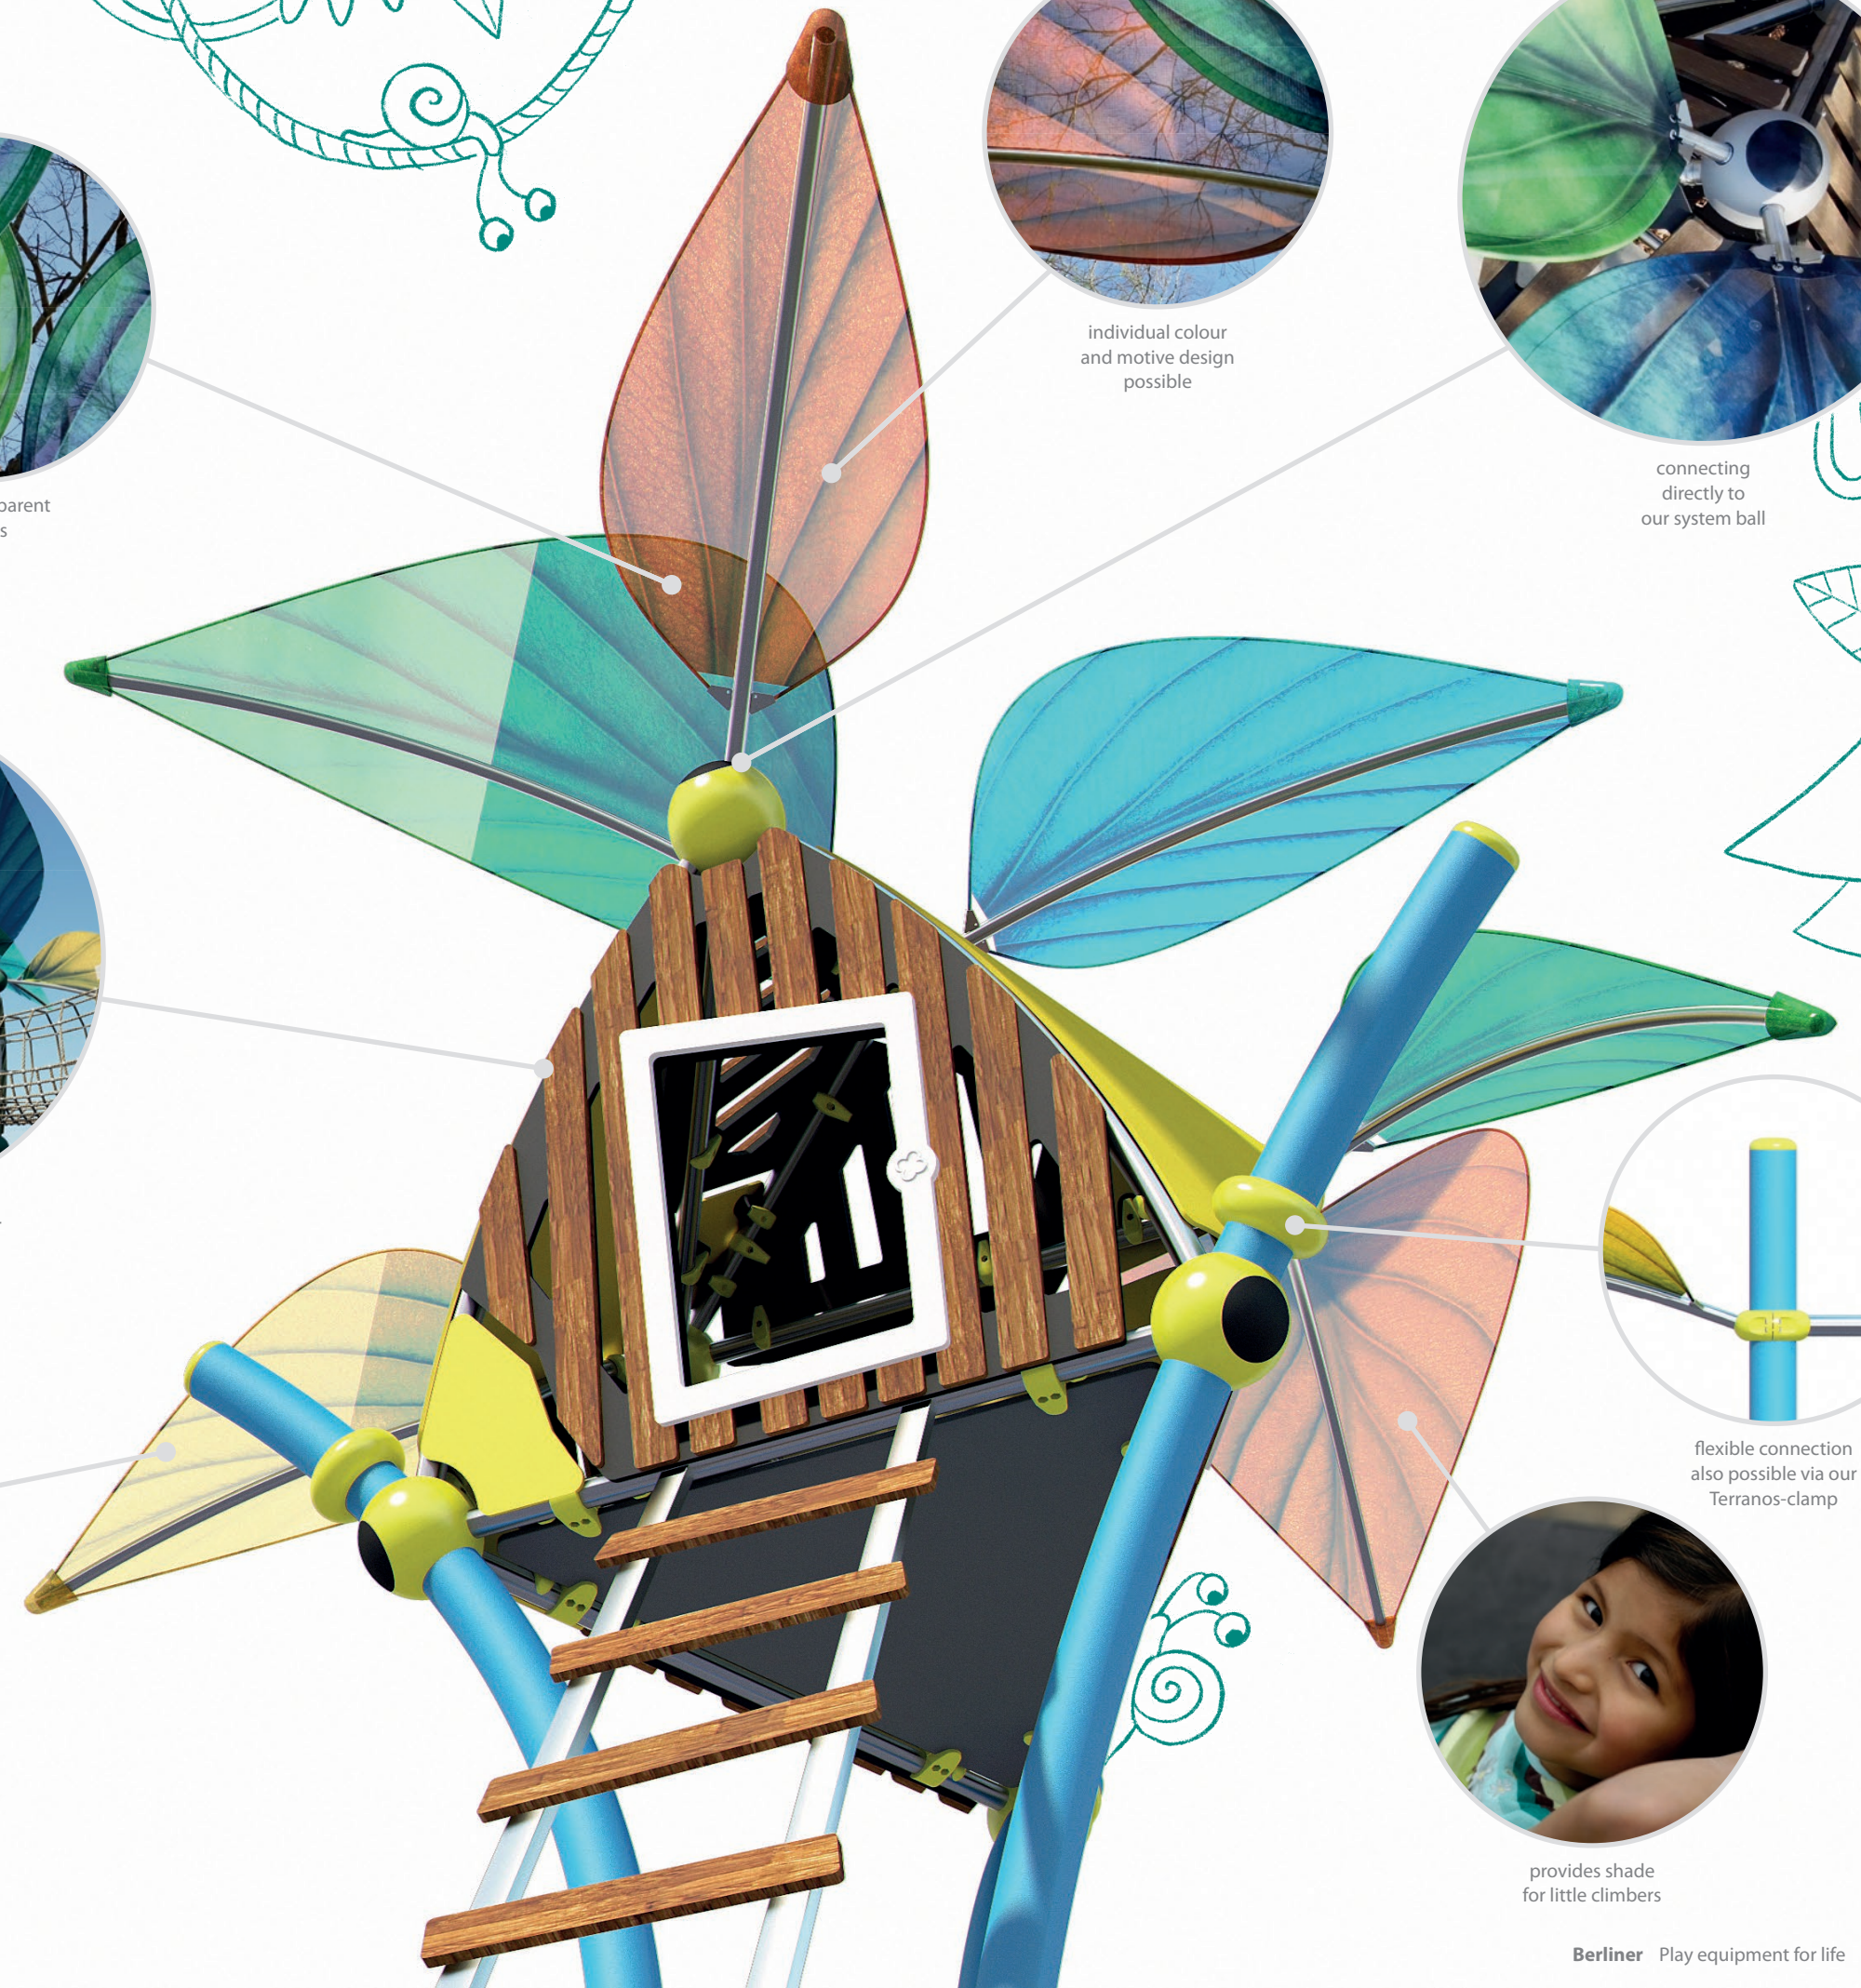

textile membrane made of high-technology fabric mesh, printable on both sides, dirt-repellent, 100 % recyclable, resistant to UV light

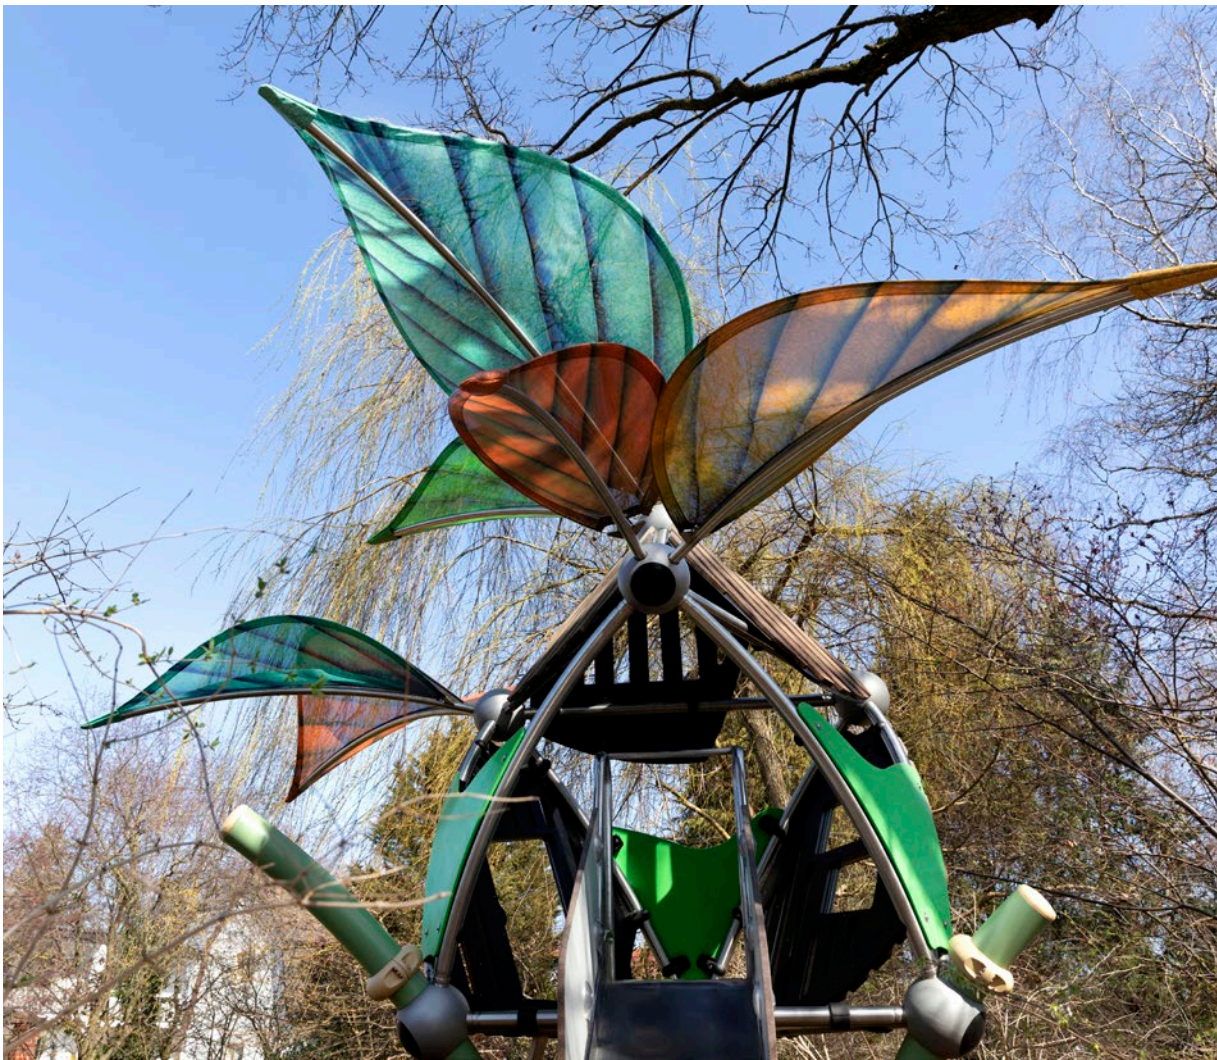

flexible connection also possible via our Terranos-clamp

provides shade for little climbers

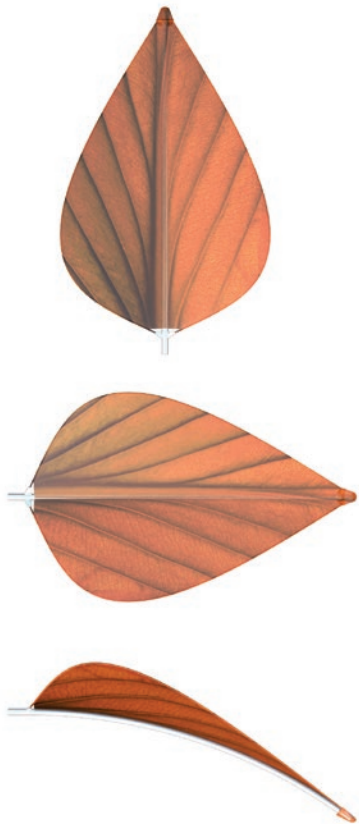

## Leaf L

90.294.001.237

(m)  
('-")

2,3 x 1,34 x 0,51  
7-7 x 4-5 x 1-8

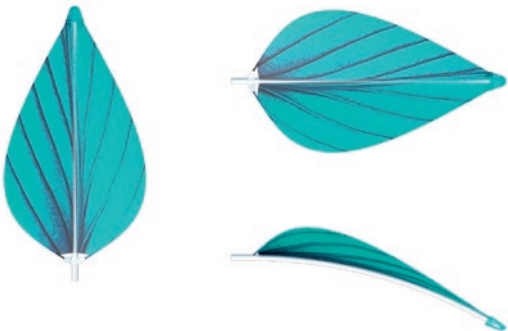

## Leaf M

90.294.001.236

(m)  
('-")

1,78 x 0,89 x 0,24  
5-10 x 2-11 x 0-10

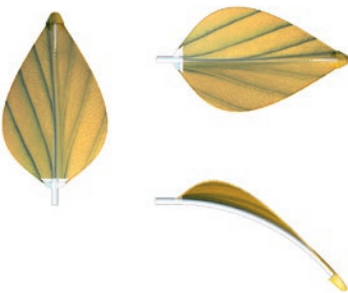

## Leaf S

90.294.001.235

(m)  
('-")

1,35 x 0,66 x 0,31  
4-5 x 2-2 x 1
